"30 Years Dependable Service"—GRAHAM

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1937 edition of the Burlington City Directory, which also includes Graham, Haw River and Elon College.

Confidence in the growth of Burlington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Burlington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Burlington Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Burlington is included in pages 25 to 284. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Burlington, and the name, official personnel, nature and address of each firm and corporation in the city. A similar list for Graham is contained in pages 395 to 442; for Haw River, in pages 463 to 476, and for Elon College, in pages 485 to 491.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, for Burlington, covers pages 285 to 326. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A similar guide for Graham will be found in pages 443 to 453; for Haw River, in pages 479 to 481, and for Elon College, in pages 493 to 494.

THE BUYERS' GUIDE, beginning opposite page 328 and separately paged from 1 to 22, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Burlington and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Burlington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY for Burlington is included in pages 351 to 394. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium. A similar Directory for Graham appears in pages 455 to 462; for Haw River, in pages 483 to 484, and for Elon College, in pages 495 to 496.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Burlington and vicinity.

The Burlington Directory Library

Through the courtesy of the publishers of the Burlington City Directory, a Directory Library was recently established in the offices of the Burlington Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Burlington and Alamance County

(Courtesy Burlington Chamber of Commerce)

STATISTICAL REVIEW (CITY OF BURLINGTON)

Form of Government—Aldermanic.

Population—Total, 9,737; males, 4,587; females, 5,150; white males of age, 2,604; white females of age, 2,910; total colored, 636 (1930 U. S. Census). American-born, 99%. Local estimate at present, 13,000.

Area—2.25 square miles.

Altitude—642 feet above sea level.

Climate—Mean annual temperature, 59.6 degrees F.; average annual rainfall, 46.12 inches.

Parks—2, with total of 6 acres.

Assessed Valuation—\$10,277,733, with \$1.40 per \$100 tax rate.

Bonded Debt—\$843,277.64 (net).

Financial Facts—2 commercial and 2 industrial banks, with total resources of approximately \$4,000,000. 3 building and loan associations, with total assets of \$650,000 (Dec. 31, 1936).

Postal Receipts—\$93,896.91 (calendar year 1936).

Telephones in Service—2,248.

Churches—28, representing 12 denominations.

Building and Construction—Value of building permits, \$845,075 (1936).

Real Estate—Number of homes, approximately 3,000, with about 47% owned by occupants.

Industry—Chief industries of city and surrounding territory: Manufacturing and agriculture. 70 manufacturing establishments, employing 7,500 workers, paying wages of \$6,500,000 annually, and having products valued at over \$22,000,000 annually (1936 report). Principal manufactured products: Hosiery, rayon and silk products, and dairy products.

Trade Area—Retail area has radius of 20 miles, and population of 90,000.

Newspapers—1 daily and 1 weekly.

Hotels—2, with total of 153 rooms.

Railroads—Southern.

Highways—U. S. 70; State 10A, 54, 62, 93, 103 and 144.

Airports—1, privately-owned.

Amusements—3 moving-picture theatres, with total seating capacity of 2,000 persons. 1 golf course.

Hospitals—5, with total of 60 beds.

Education—Elon College 4 miles west. 8 public schools, including 1 senior high and 1 junior high. 1 parochial school. Number of pupils in public schools, 4,902; teachers, 117.

Public Libraries—3, including branches, with total of 12,000 volumes.

City Statistics—Total street mileage, 28, with 14 miles paved. Miles of gas mains, 30; sewers, 26. Number of water meters, 2,000; light meters, 7,500; gas meters, 700. Capacity of water works, 10,000,000 gallons; daily average pumpage, 2,500,000 gallons; miles of mains, 53. Fire department has 4 men (also 34 volunteers), with 1 station and 4 pieces of motor equipment. Police department has 18 men, with 1 station and 3 pieces of motor equipment.

IN THE PIEDMONT REGION

Availability

Within six hundred miles from the boundaries of Piedmont Carolinas lie New York, Chicago, Philadelphia, Detroit, Cleveland, Pittsburgh, St. Louis, Little Rock, New Orleans and Miami.

In other words, any part of this section is only about one day's railroad travel from the nation's chief centers of population and industry—a consideration that counts heavily in the distribution and marketing of manufactured goods.

From any part of the Piedmont it is only a few hours by automobile over modern paved roads to the wonderful recreational facilities of the mountains in the western Carolinas, to the world-known resorts in the Sandhills—internationally famous for their golf courses—and to the great seaside resorts along the Atlantic Coast.

Labor

Greater than any other resource of Piedmont Carolinas is the character of its men and women. This has made the industrial development possible and attracted a host of manufacturers.

Long before the Revolution these pioneers ranged down the valleys of the Appalachians from Pennsylvania, Maryland, and other states. Largely of English stock, with admixtures of German and Scotch-Irish, they settled in the hilly Piedmont section. Their descendants are true to those early traditions. They are energetic and ambitious. It is these qualities that years ago overcame the handicap of debt and stagnation left by the Civil War. They are keen to take their place in the forefront of the nation's development.

Manufacturers coming from older, over-industrialized sections, have been struck by the ready intelligence of these people, their eagerness to be taught, and their loyalty.

National Market

Piedmont Carolinas is three hundred miles closer to the country's center of population than, for example, New York City. Based on the Life Insurance Sales Research Bureau studies, careful percentages have been worked out for every county in the U. S. in terms of ability to buy.

A 600-mile circle (the economical marketing radius) centered on New York reaches 44.5% of the national purchasing power. Centered on areas further north and east, a smaller proportion of the national market will be included.

A similar circle drawn from Piedmont Carolinas embraces 66.8% of the country's purchasing power—a 50% greater availability to the national market.

Street Map, City of Burlington

Cost of Living

It has been estimated by one authority that the cost of living averages each Piedmont workman several dollars per week less than an equal standard of living costs in more highly industrialized parts of the country. Houses cost less; food costs less. The mild climate requires lower fuel and clothing costs. Naturally labor costs less.

CIVIC FEATURES

Location and Area

Alamance County is located in the famous rapidly-developing industrial area known as the Piedmont Section. It lies between north latitude 35 degrees 52 minutes and 36 degrees 17 minutes and west longitude 79 degrees 16 minutes and 79 degrees 34 minutes, in the north central section of the state. (Burlington's altitude is 642 feet.) County has 492 square miles land area, or 314,880 acres.

Highway Map, Alamance and Adjoining Counties—
 — Hard Surface
 - - - Topsoil, Sand Clay-Gravel

History and Peoples

The following is quoted from a study by John W. Harden, entitled "Alamance County: Economic and Social," and published by the University of North Carolina: "It is not known exactly when the early settlers came to the region which is now Alamance County, but in 1760, when Lawson, an English explorer and adventurer, journeyed through this locality, he found it heavily forested and in the hands of the Saxapahaw Indians, with only a few scattered whites present.

"It seems that this section of the state was first settled by emigrants from the Rhine River section of Germany, known as the Palatine.

"These early settlers were augmented in 1720 by immigration of settlers from the North, and it was this movement that gave the region its first white inhabitants in any number. These came from Virginia, Maryland, Pennsylvania, New Jersey, and even the more distant New England. The newcomers were mostly Scotch-Irish, German, and English families, the last being mainly Quaker in religion."

Population

In 1930 the population within Burlington's city limits was 9,737, with several thousand in the immediate suburbs. At the end of 1936 a survey indicated the city's population to be at least 13,000.

Within a $1\frac{3}{4}$ -mile radius of the City Hall there are some 17,500, while a four-mile radius will take in over 25,000, or nearly 50% of the population of the entire county.

The following are population percentages for Burlington:

Native white	92.8%
Foreign-born white	0.6%
Negro	6.6%
Total native-born	99.4%

The same census shows that for the U. S. the percentage of increase in population during the period of 1920 to 1930 was 16.1%. North Carolina was 23.9%.

The population of Alamance County during the same period increased 25%, while the population of Burlington increased 63.5%.

Thus Burlington's growth was four times that of the U. S. average, and nearly three times the state average.

Churches

The essentially religious atmosphere of the community and its influence on Burlington's citizenship are indicated by the presence of 28 churches (24 white and 4 colored), including all leading denominations, this being a ratio of one church to every 450 of the population. Total membership in local churches is around 6,000.

Education

COLLEGES AND UNIVERSITIES—Within a two-hour automobile ride of Burlington, within North Carolina, are at least seventeen white colleges and universities of the first rank, and several within this radius in the neighboring state of Virginia, making a total of more than twenty. Of these, four are State institutions and ten are denominational. There are also a number of Negro educational institutions, State, denominational and private, within the same area.

Municipal Building

Elon College, supported by the Christian Church, is located four miles from Burlington, and is one of the best-equipped educational institutions in the state, both as to buildings, strength of faculty, and equipment.

CITY SCHOOLS—The Burlington city public schools rank among the best in the state. The local school district has twelve buildings, of which eight are white and four Negro, the district embracing Burlington and its suburbs. At the close of 1936 the faculty consisted of 94 white and 23 Negro teachers, the enrollment of students being 4,093 white and 809 Negro, a total of 4,902. Classroom and laboratory equipment, library, auditorium, gymnasium and playground facilities are adequate.

The public school system is governed by a local board of education and a superintendent under the supervision of the State School Commission, and is financed principally from State funds, the State having assumed the support of all public schools through a state-wide system set up in 1933 by legislative act.

Burlington has a business college giving commercial classes, bookkeeping and stenographic instruction.

There are also several private kindergartens.

LIBRARY—A public library, supported by the City, with branch libraries at three of the schools, has a total of over 12,000 volumes, while the circulation for home use in one year totaled some 26,000. This does not include use within branch school libraries.

ILLITERACY—The 1930 U. S. Census showed that the percentages of illiteracy in the states named were as follows: Massachusetts, 3.5%; Rhode Island, 4.9%; New York, 3.7%; New Jersey, 3.8%; Pennsylvania, 3.1%; Virginia, 8.7%; North Carolina, 10%; South Carolina, 14.9%; Kentucky, 6.6%; Tennessee, 7.2%; Alabama, 12.6%; Georgia, 6.4%.

The percentage of illiteracy for Burlington was only 2.1%, as compared with a U. S. average of 4.3%.

Alamance County ranks third among the one hundred counties of the state in newspaper reading, with one paper for every 2.5 persons against a state-wide average of one paper for 5.1 persons.

Recreation

Burlington is within a few hours' ride of the noted beach resorts along the coast, the nationally-known sandhill resorts around Southern Pines and Pinehurst, and the far-famed summer mountain resorts surrounding Asheville, in the western part of the state.

There are many game preserves in the area. Bear and deer are found in coastal and mountain counties. Raccoons, foxes, opossums, quail and rabbits are available throughout the state. Brant, duck, geese and other migratory birds winter in large numbers on the coast and there is also excellent fishing along the coastal sounds and in the lakes and streams of the interior.

Within an easily-accessible distance of Burlington are excellent hunting and also many streams and lakes for fishing.

Within the city there are playgrounds at each of the schools, baseball and football fields, several parks, a number of tennis courts, and the Piedmont Country Club, with an excellent nine-hole golf course.

COMMERCIAL FEATURES

Trade Area

Burlington's retail and wholesale trade area covers a radius of fifteen to twenty miles, including all of Alamance County and parts of the five adjoining counties, this area having a population of 75,000.

The volume of retail business in Alamance County, according to the 1935 U. S. Census, was \$10,051,000, and of this amount, Burlington's stores did a retail volume of \$6,751,000, or 67.2% of the county total. Per capita retail sales in Burlington amounted to \$693 per year and the average sales per store, \$32,301. Of all cities in the state over 5,000 population, Burlington ranked fourth in average sales per store, first in per capita sales, and eleventh in total volume of sales, while it ranked twenty-first in population. Average per capita sales for the eight largest cities of the state (with population from 30,000 to 85,000) was \$361, and average volume per store \$28,100. All these eight cities ranked below Burlington in per capita retail sales.

The same census showed total number of retail stores for the county to be 605; and for Burlington, 209, the total number of business firms, including retail stores, being about 500. Burlington's twenty wholesale firms' volume of sales was \$3,109,000.

Local Stores

A recent survey of the nearby trade area indicated the decided preference of customers within Burlington's area in patronizing local stores, because of the excellent quality and service, the variety and prices of commodities, which compared favorably with those of cities much larger. There is a very small percentage of mail-order and out-of-town shopping. Approximately 88.4% of those in the Burlington area buy in Burlington.

The following is an analysis of the city's retail and wholesale outlets:

Auto sales, 10.	Jewelry, 6.
Bakeries, 1.	Junk, 2.
Barber shops, 22.	Ladies' ready-to-wear and millinery, 22.
Beauty shops, 23.	Laundries, 4.
Building materials, 5.	Luggage and leather goods, 20.
Cafes, restaurants, 35.	Lumber and millwork, 3.
Cigars and tobacco, 60.	Men's clothing, 14.

Department stores, 6.	Plumbing and heating, 4.
Drug Stores, 13.	Printing, 5.
Electrical supplies, 8.	Radios, 9.
Feed, 6.	Service stations, 53.
Fish and oysters, 3.	Shoes, 16.
Florists, 2.	Soda fountains, 20.
Fruits, 6.	Sporting goods, 5.
Funeral, 7.	Trucking, 13.
Furniture and home furnishings, 13.	Variety 5-10-25c, 4.
Garages, 18.	Wholesale groceries and feeds, 8.
Groceries and meats, 68.	Wholesale gas, oils, 11.
Hardware, 4.	
Ice and cold storage, 3.	

Hotels

The city has two commercial hotels—the Alamance, with a capacity of 200, there being a total of 85 rooms (15 double and 70 single), all with bath, on the first floor the dining-room, on the mezzanine a private dining-room, and a ballroom on the second floor; the Piedmont Hotel, with a capacity of 100, having a total of 68 rooms, of which 53 are single and 15 double, some with bath and some without.

There are also a large number of private rooming houses and boarding houses, as well as six apartment houses.

Financial Institutions

Two commercial and two industrial banks, with total resources of approximately \$4,000,000. Three building and loan associations, with resources of some \$650,000, and three personal small-loan companies within the city, which are in position to handle local commercial and financing needs along sound lines.

Transportation

RAIL—Railway passenger and freight service over the Southern Railway lines connects with all other rail routes, there being five passenger trains each way daily, with through Pullman and sleeper service to important points. Burlington is only one night out of New York by rail.

Freight service time between Burlington and New York, Philadelphia, Baltimore, Knoxville	Two days
Savannah and Atlanta	Three days
New Orleans	Four days
Memphis	Four days
Chicago	Five days

Six package cars operate daily to junction points. Daily through freight service is furnished on three or four trains each way. Local freight service both ways every other day, switching service to and from Greensboro each day except Saturday. Local side-trackage sufficient for some 600 cars.

EXPRESS—Adequate express facilities are furnished by the Southern Express Co. Express delivery time: Between Burlington and New York City, 16 to 17 hours; Washington 11 hours; and other major points on schedules equally prompt proportionate to distance.

BUS—Hourly passenger bus schedules are maintained by the Carolina Coach Co. east and west, making connections for all points, while a short-line bus service is in operation to nearby towns and a local bus service operates on regular routes within the city and to nearby industrial sections. There is, of course, adequate local taxicab service.

Piedmont Country Clubhouse

MOTOR TRUCK—Six long-distance motor truck freight lines operate from or through Burlington on daily schedules north and south to the larger cities, making connections for western and eastern cities, one of the largest in the Southeast being Barnwell Bros., Inc., a locally-owned line.

AIRPLANE—A commercial airport, Huffman Field, operated by the Burlington Flying Service, located two miles east of the city's business section, is equipped with two hangars, has repair service and other supply facilities, telephone, taxi and bus connections with the city, with several passenger planes available on the field, making possible connections with the major established air mail and passenger routes.

INDUSTRY

Alamance County's industrial history dates from the year 1837, when Edwin M. Holt, who was born and reared in the county, established a cotton mill on Alamance Creek, four miles southwest of Burlington.

About the year 1854 this mill began the production of colored cotton fabrics, the first in the South to produce this material.

In 1887, when Burlington acquired its name, there were three cotton mills, one coffin factory, and a few smaller plants. Today there are 25 hosiery mills, 10 other textile and 35 miscellaneous—a total of 70, in a community with a population of little over 15,000. There are some forty other plants, principally textile, located in the remainder of the county.

Industrial expansion has been steady. The Lafayette Mills were established in 1881; the E.M.H. Plaid Mills, in 1883; the Lakeside Mills, in 1893. In other parts of the county the older plants include White Furniture, in 1881; the Durham Hosiery Mills, in 1898; the Virginia Cotton Mills, in 1894.

Burlington has become known as one of the leading hosiery-mill centers of the country. According to latest available census data, only five cities of the U. S. outrank Burlington in production, only one of these being in the South, while Burlington leads in the South in number of plants. The first hosiery mill here, the Daisy, was established in 1896, followed a few years later by the Burlington Knitting Co., the Whitehead Hosiery Mill, the Sellars Hosiery Mill, the May Hosiery Mills, and the McEwen Knitting Mills—the last being the first in the section to manufacture full-fashioned hose. These were followed by many others, most of which are still operating.

Beginning in 1923, with the establishment here of the Burlington Mills, the rapid expansion of this group of plants, now numbering seven in and near the city, with some twenty in other cities in the area, has brought the weaving industry to the forefront, making the city known for dress goods, art silk, tapestries, and other cotton, rayon and silk fabrics, as well as for hosiery.

The E. M. Holt Plaid Mills, which have celebrated their fiftieth anniversary, also entered the rayon- and silk-weaving field a number of years ago, and have several plants in Burlington and the county.

These groups and several others have made Burlington one of the country's leading centers in this textile field.

Other industrial lines represented by local manufacturing plants are lumber, building material, caskets, soft drinks, ice, mixed feeds, dairy products, baking, printing, proprietary medicines, gas, paper boxes and foundry and machine shops.

Among the 3,073 counties in the U. S., Alamance ranks 216th in number of manufacturing plants, and 203d in number of wage-earners.

INDUSTRIAL PAYROLLS in Burlington average well over \$150,000 per week, with 7,542 persons employed. Indicative of the steady industrial growth, in 1927 there were 12 new plants located here; in 1928, another 12; in 1929 the total was 14; in 1930 there were 8; in 1931, another 9; in 1932, in spite of depression, 5; in 1933, another 8; in 1934, 5; in 1935, 2; in 1936, 4—a total of 79 plants in nine years. After allowing for a number of plants which have "fallen by the wayside" during this period, the net increase has still been impressive.

In recent years Burlington has been led by only one or two cities in the state in the establishment of new plants, and tied by one or two, these being considerably larger than Burlington.

The county in the 1930 U. S. Census, ranked fourth in the entire state in number of plants, sixth in total wages paid, and seventh in value of products, totaling \$27,229,186.

THE FUTURE—SOME COMMENTS

During the severe economic crisis of 1930-34, this sturdy city fought the depression and conquered it.

"No town in the state has shown its ability to come back better than the city of Burlington," declared a newspaper man from another Carolina city, and Burlington citizens have made that reputation possible, both by individual and collective community effort.

The late Franklin K Lane, former Secretary of the Interior, made the following statement in one of his addresses: "The region of central North Carolina, stretching from the Blue Ridge Mountains to a point about Goldsboro, is destined to become the greatest industrial area in the U. S., because of its great industrial advantages and economies." Burlington and Alamance County are situated midway in this region and bid fair to prove the validity of his statement.

Irvin S. Cobb says: "Let some statistician tell a tale in exultant terms of bank clearings and enlarged bank deposits, exports, advancement of wealth and production. Going only by what these two eyes have seen, I proclaim that North Carolina today is the foremost State of the Union in material progress, in public spirit, in educational expansion, and optimism of outlook."

Burlington's development, although not as rapid as some other cities, has not, like many of them, been of the "boom" type, or "one-sided," but rather a steady, sound, substantial one. This underlying economic soundness has borne fruit in the way in which it has withstood the blows of the depression, although these have left their marks, of course.

The city invites and will welcome and cooperate with those firms and people who believe that character and economic soundness are paramount to mere size in development.

BURLINGTON DIRECTORY OF HOUSEHOLDERS (1937)

285

HILL'S BURLINGTON

Directory of Householders, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide

1937

Copyright, 1937, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

*** between two intersecting streets denotes that there are no houses between them on that particular street.

(c) denotes colored.

BURLINGTON DIRECTORY OF HOUSEHOLDERS (1937)

327

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Your City Directory
— Pays Its Way

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

GRAHAM DIRECTORY OF HOUSEHOLDERS (1937)

443

HILL'S GRAHAM

Directory of Householders, Occupants of Office Build- ings and Other Business Places, Including a Complete Street and Avenue Guide 1937

Copyright, 1937, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

*** between two intersecting streets designates that there are no houses between them on that particular street.

(c) denotes colored.

(1937) HILL DIRECTORY CO.'S

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

HAW RIVER CITY DIRECTORY (1937)

477

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

HAW RIVER DIRECTORY OF HOUSEHOLDERS (1937)

479

HILL'S HAW RIVER

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1937

Copyright, 1937, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

(c) denotes colored.

HILL'S ELON COLLEGE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1937

Copyright, 1937, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

(c) denotes colored.

TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fast-quickies and other little use for lives too

...ry is a
...cupies a
...t is as
...d de-
...ly as
...which
...al as

If you are advertising your business in the Directory, may we explain how and why it will pay you?
